

FIKRI HIDAYAT

INFORMATICS ENGINEERING STUDENT

Mobile & Web Developer | UI/UX Design

linkedin.com/in/fikri-hidayat-092070368/ | github.com/fikrihidayat25

OBJECTIVE

Informatics Engineering Student with a strong foundation in full-stack web development and network infrastructure. Experienced in rapid prototyping, system architecture, and modern development workflows. A collaborative and empathetic team player eager to join Apple Developer Academy to build innovative, user-centered digital products.

SKILLS

- **Web & Mobile Coding:** Experienced in building full-stack web apps using PHP (Laravel), React, and TypeScript, as well as mobile interfaces with Dart and Flutter.
- **System & Infrastructure:** Knowledgeable in network setup (Mikrotik), local server troubleshooting, database design (MySQL), and deploying apps to Google Cloud Run and Vercel.
- **Workflow & Tools:** Skilled in rapid prototyping, using AI tools for UI/UX framing, and performing black-box testing to ensure software quality.
- **Teamwork & Soft Skills:** Comfortable working in cross-functional teams, open to feedback, empathetic communicator, and quick to learn new technologies.

EXPERIENCE

SOFTWARE ENGINEERING INTERN • MAGANG KOMINFO BUKITTINGGI • AUGUST 2025 – SEPTEMBER 2025

Developed mobile and web application features using Dart, Flutter, and Laravel framework for backend API integration. Collaborated closely with senior developers to gain technical guidance and apply software development best practices.

IT & NETWORK TECHNICIAN INTERN • PT MEDIA TEKNO NUSANTARA • JANUARY 2020 – MAY 2020

Handled daily IT hardware troubleshooting, computer assembly, and network maintenance. Configured local area networks (LAN) and Mikrotik routing parameters to ensure stable network connectivity for clients.

WEB PROGRAMMER • SIMPRO-KON (TEAM PROJECT) • 2026

Built and maintained core web features for a construction project management system within a collaborative development team. Implemented backend logic using Laravel and designed responsive interfaces to streamline contractor activity tracking.

EDUCATION

BACHELOR OF INFORMATICS ENGINEERING • EXPECTED NOVEMBER 2026 • INSTITUT TEKNOLOGI PADANG (ITP)

Completed all coursework and final project research in web application architecture. Focused on Software Engineering, Web Development, and System Architecture.

COMPUTER AND NETWORK ENGINEERING • 2019 – 2022 • SMK 6 PADANG

Graduated with a specialization in computer hardware maintenance, local network infrastructure (LAN), and Mikrotik router configuration.

ORGANIZATION EXPERIENCE

MEDIA & DOCUMENTATION COMMITTEE (PDD) • CAMPUS BOLEAN ITP & WELCOMING EVENT • 2024

Managed event documentation and visual media assets for the Informatics Department welcoming event boolean itp. Captured key event moments, handled media publications, and collaborated with the committee to deliver engaging visual content
